SLYLOCK FOX

BY BOB WEBER JR.

Ms. Bear insists Count Weirdly stole her family's honey tonight and fed it to his giant genetically modified bee. Weirdly insists that is impossible because he just returned from an entire evening of travel in his time machine. Even if his time machine actually works, Slylock Fox doubts the count's alibi. Why?

Solution -- Slylock noticed Weirdly's steaming cup of coffee. Obviously, the coffee would have long cooled if he had been away all evening.

Spot six differences between these panels.

Answer -- Plane, star, whisker, tooth, chimney and eyes.
